# **Indonesia 2010 Report (Sanitation Management)**

### **Outcome Indicators**

| IWRM Issue 6 – Sanitation Management (18 indicators) |   |          |             |  |
|--|---|----------|-------------|--|
| Indicator<br>Types                                   | Indicators  | Progress | Description |  |
| Outcome<br>Indicators                                | Percentage of rural population     having access to improved     sanitation system  | 41.09 %  |             |  |
|  | Percentage of urban population     having access to improved     sanitation system and served by     sewer network  | 70.83 %  |             |  |
|  | Percentage of treated wastewater reused for non-potable purposes (i.e. further treatment after wastewater treatment process) [e.g. for washing, cleaning, irrigation] | 55.53%   |             |  |

### **Enabling Environment Indicators**

| EE<br>Indicators | Any "Policy" on urban/rural sanitation and sewerage systems  | Under<br>No. 32<br>Enviro         | iveness of Output is ored and evaluated the Law of Indonesia 2/2009 regarding onmental Protection and gement (See Note 1) |
|------------------|--|-----------------------------------|---|
|                  | 2. Any "Legislation/Regulations" on urban/rural sanitation and sewerage systems                          | monite<br>Under<br>Regul<br>16/PR | r the Government ation PUPR No. RT/M/2008 regarding   |
|                  | <ol> <li>Any "Financial<br/>framework and<br/>Financing plans" for<br/>urban/rural sanitation</li> </ol> | monite                            | iveness of Output is ored and evaluated mentioned in the  |

| and sewerage | Law of Indonesia No.17/2007 |
|--------------|-----------------------------|
| systems      | regarding                   |
|              | National Long-Term          |
|              | Development Plan for 2005-  |
|              | 2025                        |

**Note 1** - The law consists of aspects of planning made through an inventory of environmental, zoning and preparation, aspects of resource utilization implemented based on the carrying capacity and environmental carrying capacity, aspects of the control of pollution and environmental damage function that includes prevention, mitigation and recovery, aspects of the control instruments, among others: licensing, environmental economic instruments, legislation-based environment, budget-based environment, environmental risk analysis life, environmental audits, and other instruments in accordance with the requirements and / or the development of science, aspects of the preservation of the environment is done through conservation of natural resources, reserves of natural resources, and / or preservation of function atmosphere, and aspects of monitoring and enforcement.

#### **Institutional Set-up Indicators**

| IS<br>Indicators | Any Integrated     national and     provincial     institutions to     implement     sanitation policies | Yes (8) | Effectiveness of Output is monitored and evaluated  Ministry of Health Ministry of Public Works and Housing Ministry of Internal Affairs Local Governments   |
|------------------|--|---------|--|
|                  | 2. Any Policy & Planning Department on sanitation and sewerage   | Yes (8) | Effectiveness of Output is monitored and evaluated  Direktorat Jenderal Cipta Karya, Kementerian Pekerjaan Umum dan Perumahan Rakyat  Directorate General of Human Settlements, the Ministry of Public Works and Housing |
|                  | Any Project     management     Department for     sanitation and     sewerage                            | Yes (8) | Effectiveness of Output is monitored and evaluated  Direktorat Penataan Bangunan dan Lingkungan, Direktorat Jenderal Cipta   |

|  |                       | 1       | 1                                     |
|--|-----------------------|---------|---------------------------------------|
|  |                       |         | Karya, Kementerian Pekerjaan          |
|  |                       |         | Umum dan Perumahan Rakyat             |
|  |                       |         | Bississis of B. Il Passas I           |
|  |                       |         | Directorate of Building and           |
|  |                       |         | Environment Regulation, Directorate   |
|  |                       |         | General of Human Settlements, the     |
|  |                       |         | Ministry of Public Works and Housing  |
|  |                       |         | (See Note 1)                          |
|  | 4. Any Development    | Yes (8) | Effectiveness of Output is monitored  |
|  | control branch or     |         | and evaluated                         |
|  | unit for sanitation   |         | 5: 1: 15                              |
|  | and sewerage          |         | Direktorat Pengembangan PLP           |
|  |                       |         | (Penyehatan Lingkungan                |
|  |                       |         | Permukiman), Direktorat Jenderal      |
|  |                       |         | Cipta Karya, Kementerian Pekerjaan    |
|  |                       |         | Umum dan Perumahan Rakyat             |
|  |                       |         | Directorate of Residential            |
|  |                       |         | Environment Sanitation Development,   |
|  |                       |         | Directorate General of Human          |
|  |                       |         | Settlements, the Ministry of Public   |
|  |                       |         | Works and Housing                     |
|  |                       |         | S                                     |
|  |                       |         | (See Note 2)                          |
|  | 5. Any private sector | Yes (8) | Effectiveness of Output is monitored  |
|  | participation in      |         | and evaluated                         |
|  | providing             |         |                                       |
|  | sanitation services   |         | Under the Law of Indonesia No.        |
|  | for the people        |         | 21/2004 regarding the legitimation of |
|  |                       |         | Cartagena Protocol On Biosafety To    |
|  |                       |         | The Convention On Biological          |
|  |                       |         | Diversity                             |
|  | 6. Any Sewerage       | Yes (8) | Effectiveness of Output is monitored  |
|  | Network               |         | and evaluated                         |
|  | Rehabilitation        |         |                                       |
|  | department            |         | Directorate of Residential            |
|  |                       |         | Environment Sanitation Development,   |
|  |                       |         | Directorate General of Human          |
|  |                       |         | Settlements, the Ministry of Public   |
|  | 7                     | V (0)   | Works and Housing                     |
|  | 7. Any Sewerage &     | Yes (8) | Effectiveness of Output is monitored  |
|  | Sanitation            |         | and evaluated                         |

| Maintenar | ice |                                |
|-----------|-----|--------------------------------|
| departmer | nt  | Under the maintenance of       |
|           |     | Wastewater Sub-Directorate and |
|           |     | Drainage Sub-Directorate       |

**Note 1** - This Directorate has the task of carrying out most of the main tasks of the Directorate General of Human Settlements in formulating and implementing policies, preparation of product regulation, supervision and facilitation in the arrangement of buildings and environments including building management coaching and country houses.

**Note 2** - This Directorate has a duty to carry out part of the implementation of Environmental Health includes sanitation, management and construction of drainage systems.

### **Management Tools Indicators**

| MT         | Any national  | Yes (8)  | Effectiveness of Output is   |
|------------|---|----------|--|
| Indicators | sanitation/sewerage information   | 1 00 (0) | monitored and evaluated  |
|            | systems/database  |          | http://ciptakarya.pu.go.id/v<br>3/index.php  |
|            | <ol><li>Any comprehensive<br/>sewerage/sanitation<br/>master plan at national,</li></ol>  | Yes (8)  | Effectiveness of Output is monitored and evaluated   |
|            | regional and local levels   |          | Settlement Sanitation Development Acceleration Program (PPSP) 2010- 2014   |
|            | Any code of practices for sewerage and sanitation system design   | Yes (8)  | Effectiveness of Output is monitored and evaluated  City Sanitation Strategy (SSK)   |
|            | 4. Any system for treating wastewater for reuse [for non-potable water purposes (i.e. further treatment after waste water treatment process)] | Yes (8)  | Effectiveness of Output is monitored and evaluated  National Policy and Strategy of Wastewater Settlements Management Systems Development (KSNP-SPALP) |

|   |         | Under the Regulation of<br>the Minister of Public<br>Works No. 16 / PRT / M /<br>2008 on KSNP-SPALP        |
|---|---------|--|
| 5. Any sludge disposal programs and systems | Yes (8) | Effectiveness of Output is monitored and evaluated  Community-Led Total Sanitation (STBM) during 2010-2014 |
