

ASEAN IWRM PERFORMANCE REPORTS & MONITORING INDICATORS

Philippines Summary Report (Water Pollution Management)

| IWRM Issue 5 – Water Pollution Management (18 indicators) | | | |
|------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|-------------|
| Indicator Types | Indicators | 2010 | 2013 |
| Outcome Indicators | 1. Percentage of monitored water bodies' ambient water quality meeting designated uses (agriculture, water supply, fisheries, industrial, etc.) | % | % |
| | 2. Percentage of industrial/domestic effluent discharge complying with the country's effluent discharge standard | % | % |
| EE Indicators | 1. Any "Policy" on water pollution control | Yes | Yes |
| | 2. Any "Legislation/regulation" for water pollution control (i.e. for the management of water quality and wastewater quality) | Yes | Yes |
| | 3. Any "Financial framework and Financing plans" for water pollution control | Yes | Yes |
| IS Indicators | 1. Any "Agency/Department" responsible for water pollution control | Yes | Yes |
| | 2. Any "Steering committee" on river water quality and environmental issues (e.g. inter-agency committee) | Yes | Yes |
| | 3. Any "Formal institutional arrangements" among related agencies to manage water pollution | Yes | Yes |
| | 4. Any "Private/public partnership and participation" in managing water pollution | Yes | Yes |
| MT Indicators | 1. Any river water quality master plan at national and local levels | Yes (8) No (1-7) NA | |
| | 2. Any relocation plans for highly polluting industries in a river basin | | |
| | 3. Any effluent discharge standards | Yes | Yes |
| | 4. Any river water quality monitoring program | Yes | Yes |
| | 5. Any river water quality information system/database | Yes | Yes |
| | 6. Any program to disseminate to the public regular report on river water quality status | | |
