

IWRM Issue 4 - Flood Management (15 indicators)			
Indicator Types	Indicators	Progress	Description
Outcome Indicators	1. Total area affected by flood (target reduction in flooded area)	ha	
	2. Total number of people affected by flood (target reduction in the number of people/households affected by flood)		
	3. Annual cost of flood damages		
	4. Percentage of annual national budget allocated to flood management	%	
	5. Percentage of flood-prone areas in the country covered by early flood warning systems	%	
	6. Percentage of flood-prone areas in the country covered by real-time flood monitoring system	%	
EE Indicators	1. Any "Policy" on flood management and river conservation	Yes (8) No (1-7) NA	
	2. Any "Legislation/Regulations" on flood management and river conservation		
IS Indicators	1. Any flood management regulatory agencies	Yes (8) No (1-7) NA	
	2. Any institutional arrangements among related agencies to manage flood		
MT Indicators	1. Any implementation of Integrated Flood Management (IFM) approaches involving the use of structural and non-structural flood mitigation measures	Yes (8) No (1-7) NA	
	2. Any program to develop flood hazard and flood risk maps		
	3. Any river basin flood zoning and land use planning		
	4. Any program to control the loss of existing low-lying flood detention areas to development		
	5. Any climate adaptation program to mitigate the potential impacts of extreme floods due to climate change
